Too many cooks spoil the broth b. Birds of a feather flock together c. Two heads are better than one d. Cut your coat according to your cloth					
۱۳		متن زیر را بخوانید و به سوالات آن پاسخ دهید. Did you know that planting trees around your home can help you save money? Trees can lower the cooling costs of your home, especially during hot summer months. This happens because trees protect your home from direct sunlight. When the sun shines directly on your house, the walls and roof become very hot. This heat travels inside and makes your home warm. As a result, your air conditioner has to work harder and use more electricity to keep the house cool. This increases your energy consumption. Moreover, trees cool the air and the surrounding area. <u>They</u> absorb water from the ground and release (let something go) it into the air through their leaves. This process is 'transpiration'.
