متن شماره یک

Sometimes it is fun to think about things that will never happen. We can ask ourselves questions that don't have any real answers. For instance, we can think: "what would I do if I had a time machine to travel with right now?" Some people may say: "I would visit the past if I had that machine." Or "I would visit the future to see the world and people of the future." Maybe you have thought about this: "What would I do if I had this ability to talk to animals?" What would I say? Some people would prefer to talk with cats or birds, but some would not like the idea. They would feel frightened!
