متن شماره ۲:

Sara has been in the Children's Medical Center for a week. She has caught a terrible flu. The doctor told her to stay there to get better. There is a photograph of an old man on the wall. While the nurse is taking her temperature, they start talking.

- Sara:** Excuse me, who is that man in the picture?
Nurse: Oh, don't you know him? Have you ever heard of Dr. Mohammad Gharib?
Sara: I guess I have only seen his name in my English book, but I'm not sure about it.
Nurse: Dr. Gharib was a famous physician.
Sara: Oh,... can you tell me a little about his life?
Nurse: Dr. Gharib was born in Tehran in 1288. After receiving his diploma, he went abroad to study medicine. In 1316 he became a physician and then came back to his homeland. In 1347 this center was founded by Dr. Gharib and one of his close friends.
Sara: Really? I didn't know that.
Nurse: Dr. Gharib was also a generous man. He spared no pains to cure sick children. He was very friendly and helpful to poor families. Not surprisingly, he was regarded as a dedicated physician.

To make learning new vocabulary fun and effective, you can use everyday objects around your house. Take small pieces of paper and write down new words on them, stick these notes to things like your refrigerator, desk or window. Whenever you see these words in your home, try to remember their meanings and use them in sentences or conversations. Only remove the notes when you have learned the words well. Using cards known as flashcards can be a fun and interesting way to learn new words. Write a new words one side of the flashcard and its meaning on the other. Take a few minutes each day, to review your flashcards and test yourself.
